

RESPONSE TO ELECTION/RESTRICTION REQUIREMENT
U.S. APPLN. NO. 10/089,185

IN THE CLAIMS:

21. (New) The composition of claim 15, which further comprise at least one composition selected from high-molecular polysaccharide and synthetic polymer.. *PEG*

22. (New) The composition of claim 21, wherein high-molecular polysaccharide is selected from the group consisting of dextran 40, dextran 70, dextran 200000, and dextran 500000 and Ficol.

23. (New) The composition of claim 21, wherein synthetic polymer is selected from the group consisting of polyvinylalcohol 500, polyvinylalcohol 1500, polyvinylalcohol 2000, polyethylene glycol 1500, polyethylene glycol 2000, polyethylene glycol 4000, polyethylene glycol 6000, polyethylene glycol 8000, polyethylene glycol 20000 and polyvinylpyrrolidone. *PEG*

24. (New) The composition of claim 15, which further comprise surfactant.

25. (New) The composition of claim 24, wherein surfactant is selected from the group consisting of anionic surfactant, cationic surfactant, amphoteric surfactant and nonionic surfactant. *10*

26. (New) The composition of claim 24, wherein surfactant is nonionic surfactant. *10*

27. (New) The composition of claim 21, which further comprise surfactant.

28. (New) The composition of claim 27, where surfactant is selected from the group consisting of anionic surfactant, cationic surfactant, amphoteric surfactant and nonionic surfactant. *10*

29. (New) The composition of claim 27, wherein surfactant is nonionic surfactant. *10*
